**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election without traverse of group III in the reply filed on 29 August 2005 is acknowledged.
2. Claims 1-12 and 22 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 29 August 2005.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 13-15 and 21 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Jones et al, US006328640B1. Please refer to figure 1 and its description. Note that the brushes are PVA, column13, lines 54-60.

***Allowable Subject Matter***

5. Claims 16-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not disclose or fairly teach providing a CMP pad covering an outer portion of the first brush. For example, the closest art, to '640,

Art Unit: 3723

teaches providing separate pads and brushes, see for example figure 1 and its description, but does not teach a CMP pad covering an outer portion of either of the brushes.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other similar devices are cited of interest.
